Curriculum Development Cell (CDC)

The Curriculum Development Cell was established in our institution for the effective execution of the autonomy. The major role of the CDC is to design the curriculum that involves the formulation of general course scheme and scheme of examinations for all UG, PG Degree Programs along with the regulations and the teaching and evaluation strategies.

VISION

To design and develop academic programmes, scheme of course, appropriate teaching – learning process and evaluation strategy for enhancing the quality of Teaching, Learning and Evaluation process in experiencing excellence in education for the students and the society at large.

MISSION

To develop strategies for developing Quality in Medical Education system

To achieve excellence through providing competent medical professionals

Functions

- To design the curriculum and to frame the regulations and guidelines for all programs in accordance with NMC and UGC.
- To identify and suggest new courses which would improve the skills, employability and entrepreneur aspects of the students to meet out the health care industry and employment requirements.
- To drive a feedback mechanism from the stakeholders and revise the curriculum based on the suggestions of the stakeholders.
- To incorporate Value Added Courses as per UGC guidelines.
- To organize Board of Studies Meetings as per the directions of SAHE twice in an academic year.
- To organize curriculum implementation support programme for the staff on CBME and in formulating the norms to be followed in the attainment of required and expected outcomes.
- To adopt Interdisciplinary and multidisciplinary approach as per the norms in providing a holistic approach in medical education.
